Essential services such as the following were operating during COVID-19 with safety measures in place: essential healthcare services, law enforcement, first responders, vulnerable population service providers, critical infrastructure, food and agriculture service providers, transportation, industry and manufacturing, sanitation, communications and IT, financial institutions, non-health essential service providers.</p>	<p>Health officials are encouraging British Columbians to engage in small gatherings with friends and family, limiting gatherings to between two and six people.</p>		<p>An announcement on a phased approach to resuming in-class instruction will be made in the coming weeks.</p> <p>This will not be a return to normal. With weeks left in the school year, we anticipate many kids will not return to the classroom until September.</p>	<p>B.C. residents are being urged to avoid all non-essential travel outside of the province. People entering from another country must self-isolate for 14 days. Public transit services have been reduced.</p>	<p>Gradual expansion of public transit services (which had remained open during the pandemic).</p> <p>British Columbians were quick to act on direction from the Provincial Health Officer, including staying home and avoiding unnecessary trips outside the home. This made riding public transit easier for people working in essential services.</p>	<p>Continued compliance with health recommendations: practice good hygiene (frequent hand washing, avoid touching face, cough etiquette), frequent disinfection of services, stay at home when sick, maintain physical distancing, recommended use of non-medical face masks when physical distancing is not possible, avoid physical contact.</p> <p>Different sectors will be asked to develop plans for how they can meet the expectations of public health officials, and WorkSafeBC will work with industry associations to make sure those plans are adequate.</p>
