Antoinette is an associate and technical advisor in BLG's Intellectual Property Group, specializing in drafting and prosecuting patent applications in the life sciences.

Antoinette has a wide range of technical expertise in cardiovascular sciences and structural biology, including protein folding and design and antibody therapeutics.

Prior to joining BLG, Antoinette was a sessional lecturer at one of Canada's top universities, teaching the course "Current Topics in Biochemistry". Antoinette has published in several scientific journals and is a co-inventor of a clinical-stage therapeutic antibody.
