Mark has a comprehensive technology law practice, focusing on **competitive** and **innovation procurement, outsourcing** and **technology**. His clients span both the private and public sector, covering the healthcare, IT, higher education, municipal, biotechnology and energy sectors.

Mark negotiates biotechnology and life science-related joint ventures and investments in both the private and public sectors. This includes:

- negotiations regarding the provision and operation of automated laboratory facilities
- license agreements for biotechnological innovations
- the development and exploitation of bioinformatics databases

Prior to his legal career, Mark graduated from the Canadian Armed Forces RESO program, and commissioned as a combat engineering officer.

Mark provides legal services through a Law Corporation.

Experience

- Regularly assists groups of hospitals across Ontario in the acquisition of hospital information systems and related governance agreements among them
- Regularly advises the MASH sector, government agencies and others on public procurements to comply with Ontario and Canadian law and related trade agreements
- Regularly negotiates major IT and business process outsourcing arrangements for the MASH sector and others
