

Federal financial institutions legislative and regulatory reporter – April 2021

May 26, 2021

The Reporter provides a monthly summary of Canadian federal legislative and regulatory developments of relevance to federally regulated financial institutions. It does not address Canadian provincial financial services legislative and regulatory developments, although this information is tracked by BLG and can be provided on request. In addition, purely technical and administrative changes (such as changes to reporting forms) are not covered.

April 2021

Institution	Published	Title and Brief Summary	Status
Bank of Canada	April 30, 2021	Bank of Canada announces changes to securities repo operations In line with its objectives to support core funding markets and to foster the well-functioning of the Government of Canada securities market, the Bank of Canada announced changes to securities repo operations (SROs).	Effective May 3, 2021
		The maximum total bidding amount across all securities in the SRO will increase to \$4,000 million for each eligible participant effective	

	II .	li i	
		Monday, May 3, 2021. The maximum bid rate will remain at 15bps. The terms and conditions of the SRO provide operational details.	
		Retail Payments Activities Act (Canada) Published in Bill C-30	
		In Budget 2021: A Recovery Plan for Jobs, Growth and Resilience, the federal government announced its commitment to work with the provinces to table draft legislation for the proposed retail payments oversight framework (RPOF).	
Government of Canada	April 30, 2021	On April 30, the long-awaited draft Retail Payments Activities Act (Canada) (RPAA) was published by the Government of Canada in Bill C-30. The RPAA provides a broad view of what the RPOF will look like and what it will mean for payment service providers offering certain financial services to Canadians, once the legislation comes into force.	
OSFI	April 30, 2021	2023 IFRS 17 insurance returns In a letter to all federally regulated insurer (FRIs), the Office of the Superintendent of Financial Institutions (OSFI) issued the final IFRS 17 Regulatory Forms and Instructions (the Returns) for FRIs.	

	1	1

		Bank of Canada release of the Monetary Policy Report As the economy recovers	
Bank of Canada	April 21, 2021	from the COVID-19 pandemic, the Bank of Canada is forecasting growth of around 6.5 per cent this year, slowing to about 3.75 per cent in 2022 and 3.25 per cent in 2023. See here for Monetary Policy Report, April 2021.	

OSFI	April 13, 2021	OSFI launches consultation on enhanced assurance expectations OSFI launched a 10-week consultation with the publication of a discussion paper, Assurance on Capital, Leverage and Liquidity Returns for FRIs and deposit-taking institutions (DTIs). The paper focuses on enhancing and aligning assurance expectations given the increasing complexity arising from the evolving regulatory reporting framework, particularly changes resulting from International Financial Reporting Standards, Insurance Contracts and the Basel III reforms. Through this consultation, OSFI is seeking to engage FRIs, DTIs, external auditors and other interested stakeholders in a dialogue to enhance existing assurance expectations. OSFI welcomes comments and submissions on the discussion paper to help guide the development of enhanced assurance expectations in a subsequent draft guideline. Submissions should be sent to Assurance@osfibsif.gc.ca by June 18,	Comments by June 18, 2021
OSFI	April 12, 2021	ICAAP Expectations and BCAR Audit Requirements	Submissions by February 28, 2022

OSFI last wrote to all Standardized Deposit-Taking Institutions (DTIs) on October 23, 2018, communicating expectations for the 2019 ICAAP submission and internal audit of BCAR.

The purpose of this communication was to confirm that:

- OSFI will not require a formal ICAAP submission in 2021; and
- OSFI will require Standardized DTIs to file an internal audit of their BCAR return by February 28, 2022.

ICAAP Expectations

While Standardized DTIs are not required to submit a formal ICAAP for 2021, OSFI expects that institutions will continue to practice prudent capital management. This includes the continued implementation of their ICAAP program to identify, quantify and substantiate to their boards the Pillar 2 risks that underpin their target capital levels.

Standardized DTIs should treat the ICAAP as an important internal process rather than as a "regulatory" exercise.
OSFI recognizes that increased risks have

emerged due to the pandemic and believes that a robust ICAAP enhances a Standardized DTI's ability to manage through the current environment and all stages of business cycles. Therefore, OSFI expects Standardized DTIs to update their ICAAP as part of their annual capital planning process. This should include reconfirmation of internal capital targets. Lead Supervisors may request ICAAP documentation as part of OSFI's ongoing supervisory review process.

OSFI guidelines <u>E-19</u>
Internal Capital Adequacy
Assessment Program and
E-23 Enterprise-Wide
Model Risk Management
provide further detail on
the requirement to
institute an ICAAP
process, including robust
model governance for
Pillar 2 risk quantification.

Internal audit review of BCAR

The next set of internal audits of the 2021 BCAR return must be submitted to OSFI by February 28, 2022.

As with previous practice, OSFI expects each institution's Internal Audit function to provide their OSFI Lead Supervisor with the following audit:

	11	ll .	
		A review of the completeness and accuracy of one BCAR submission during the year including, but not limited to, a review of the following: • accurate categorization of Risk-Weighted Assets; • completeness of off-balance sheet amounts; and • accurate amounts	
		for credit risk mitigation (CRM).	
OSFI	Canada Gazette, Part I, Volume 155, Number 15. April 10, 2021	Government Notice: Intact Insurance Company — Letters patent of amalgamation and order to commence and carry on business Notice is hereby given of the issuance, • pursuant to subsection 251(1) of the Insurance Companies Act, of letters patent amalgamating and continuing Intact Insurance Company and The Guarantee Company of North America as one company under the name, in English, Intact Insurance Company and, in French, Intact Compagnie d'assurance, effective April 1, 2021; and	

		pursuant to subsection 52(4) of the Insurance Companies Act, of an order authorizing Intact Insurance Company to commence and carry on business, and to insure risks falling within the classes of accident and sickness insurance, aircraft insurance, automobile insurance, credit insurance, credit protection insurance, fidelity insurance, hail insurance, legal expense insurance, marine insurance, property insurance, and surety insurance, effective April 1, 2021.	
IAIS	April 9, 2021	Redefining insurance supervision for the new normal – joint IAIS-FSI note published today The Covid-19 pandemic tested the operational resilience and adaptability of insurers and supervisory authorities worldwide. Many of the challenges faced and adjustments implemented are set to shape the future "new normal" of insurance	

	·		
		supervision beyond the	
		current crisis.	
		Together with the	
		Financial Stability Institute	
		· ·	
		(FSI), the IAIS engaged	
		with several insurance	
		supervisors to learn more	
		about the measures they	
		have taken to help cope	
		with the pandemic. The	
		note describes how	
		insurance supervisors	
		transitioned to remote	
		working and how this	
		transition affected their	
		supervisory processes	
		and activities. It also	
		highlights vital human	
		resource and team	
		cohesion aspects that	
		enabled supervisors to	
		adjust more smoothly to	
		these transitions. Using	
		lessons learnt from the	
		crisis, the note explores	
		potential longer-term	
		impacts of prolonged	
		remote working and	
		proposes some key	
		considerations for	
		insurance supervisors as	
		they continue adjusting to	
		the new normal of	
		digitalization well into the	
		post-Covid future.	
		 Note: <u>Other</u>

		Papers and	
		Reports	
		FSI brief:	
		Redefining	
		insurance	
		supervision for	
		the new normal	
		OSFI proposes new	Comments by May 7,
OSFI	April 8, 2021	minimum qualifying rate	2021.
	ητριίι 0, 202 i	for uninsured mortgages	LUL 1.

		OSFI restarted its consultation on the	Coming into Force June 1, 2021.
		minimum qualifying rate	
		for uninsured mortgages,	
		and re-emphasized the importance of sound	
		mortgage underwriting.	
		The new proposal for the	
		qualifying rate for	
		uninsured mortgages is the higher of the mortgage	
		contract rate plus 2 per	
		cent or 5.25 per cent as a	
		minimum floor.	
		Additionally, OSFI	
		announced a proposal to	
		revisit the calibration of the qualifying rate at least	
		once a year to ensure it	
		remains appropriate for	
		the risks in the	
		environment.	
		OSFI sought input from	
		interested stakeholders on	
		this proposed qualifying	
		rate by email to	
		B.20@osfi-bsif.gc.ca	
		before May 7, 2021. OSFI will communicate final	
		amendments to the	
		qualifying rate for	
		uninsured mortgages in	
		Guideline B-20 by May 24,	
		2021, with a coming into force date of June 1,	
		2021.	
		Bank of Canada to begin	
		publishing CORRA	
		Compounded Index	
		As administrator of the	
		Canadian Overnight Repo	
Bank of Canada	April 6, 2021	Rate Average (CORRA),	
		the Bank of Canada	
		(Bank) will begin publishing the CORRA	
		Compounded Index	
		effective April 6, 2021. It	
		will also publish the first	

quarterly summary of publication errors at the same time.

The CORRA Compounded Index is a measure of the cumulative impact of CORRA daily compounding over time, starting from a base value of 100 on June 12, 2020. The index can be used to calculate CORRA compounded rate between any two dates. The calculation and publishing process for the CORRA Compounded Index has been added to the CORRA methodology. For illustrative examples of the compounding methodology and sample use of CORRA Compounded Index, see the consultation paper.

By making this index publicly available, the bank makes it easier for market participants to calculate interest and coupon payments for securities that use daily compounded CORRA-inarrears. The Canadian Alternative Reference Rate working group encourages the use of this compounding methodology for financial products. This methodology is also consistent with the approach taken by the Federal Reserve Bank of New York and the Bank of England for their respective reference rates.

To support the transparency of CORRA and its data quality, the bank will disclose on a quarterly basis the summary information on the calculation, publication and reporting of errors that are detected after publication. Despite verifications made by Investment Industry Regulatory Organization of Canada (IIROC) and the bank, data late submissions or revisions made by reporting entities after the submission deadline, or technical difficulties experienced by the bank or IIROC may, on occasion, affect data quality and ultimately CORRA.

These details are provided for information purposes only. After the CORRA republication deadline has passed, no amendments will be made to the published CORRA rate under any circumstances.

The bank publishes this important Canadian interest rate benchmark and its associated statistics at no cost and as a public good. The bank is committed to ensuring that CORRA is:

- a robust, reliable and representative measure of the secured overnight funding rate;
- readily available for use globally

		as a key Canadian interest rate benchmark; and • consistent with the Principles for Financial Benchmarks set out by the International Organization of Securities Commissions.	
OSFI	April 6, 2021	OSFI unwinds temporary increase to covered bond limit OSFI announced the unwinding of the temporary increase to the covered bond limit, effective immediately. One year ago, OSFI introduced extraordinary regulatory adjustments to support the financial and operational resilience of federally regulated financial institutions (FRFIs) in response to the COVID-19 pandemic. These measures included a temporary increase to the covered bond limit to facilitate greater access to Bank of Canada facilities. Covered bonds are debt securities issued by a financial institution that are collateralized against a pool of assets designed to cover claims should an issuer fail. OSFI normally limits a bank's issuance of covered bonds to 5.5 per cent of the bank's total assets. The temporary increase in the limit	

	-	-	
		targeted covered bonds pledged directly to the Bank of Canada, with the limit relating to market instruments (covered bonds sold into the market) still set at 5.5 per cent. When OSFI announced the temporary increase to the covered bond limit on March 27, 2020, it was noted that the increase would be provided for at least one year, but could be extended beyond this if needed.	
		Throughout the past year, OSFI has continued to monitor banks' liquidity and access to term funding, which have stabilized considerably since measures were initially put in place. Further, on October 15, 2020 the Bank of Canada	
		removed own-name covered bonds from their list of eligible securities for regular term repo operations. As such, the temporary increase to the covered bond limit by OSFI is no longer necessary.	
		For specific guidance, please see the letter issued to federally regulated deposit-taking institutions issuing covered bonds.	
FSB	April 6, 2021	FSB seeks stakeholders' feedback on rheir experience with the common template for gathering information about continuity of access to financial market	Comment by May 3, 2021

infrastructures (FMIs) for firms in resolution

The Financial Stability Board (FSB) is conducting a survey to gather stakeholders' feedback on its common template for collecting information on continuity of access to financial market infrastructures (FMIs) for firms in resolution. The common template for financial market infrastructures (FMIs), which takes the form of a questionnaire (the Questionnaire), was published in August 2020. The use of a common template should reduce the "many to one" nature of inquiries from FMI participants and authorities to FMIs for resolution planning and streamline the provision of this information by FMIs to firms and authorities.

This survey is part of the FSB's outreach strategy with external stakeholders regarding the topic of continuity of access to FMIs for firms in resolution. Several bank resolution authorities are, concurrently, also working to provide FMIs with further insight into their bank resolution toolkits and the impact of these tools on a bank's ability to maintain continuity of access to FMI services in resolution.

All FMIs (as providers of responses to the

		1[-
		Questionnaire) as well as firms subject to a resolution planning requirement and bank resolution authorities (as users of FMIs' responses to the Questionnaire) are encouraged to participate in this online survey. Stakeholders' input will support the efforts of FSB member authorities to ensure the Questionnaire template remains relevant and accessible, and help to reduce the burden of information gathering for firms on this topic. The survey closed on Monday, May 3.	
Payments Canada	April 4, 2021	Changes to Our Rules and Standards The following amendments were approved by the board and the Department of Finance and come into effect on May 10, 2021: • ACSS Rule F7 - Amendments to accommodate changes related to cycle time reduction.	Effective May 10, 2021
Canadian Payments Association	Canada Gazette, Part II, Volume 155, Number 7, March 15, 2021	Canadian Payments Association By-law No. 1 — General — By-law Amending Canadian Payments Act, SOR/2021- 37. The amendments to the By-law prescribe details of the SAC, including the number of members, composition, criteria,	

		eligibility for remuneration,	
		and term limits.	
Payments Canada	April 2021	Changes to our rules and standards The following amendments were approved by the board and the Department of Finance and came into effect on April 26, 2021: • ACSS Rule E3 - Amendments to update the definitions of "Severity 1 Contingency Situations" (now "Direct Participant Incidents"), "Severity 2 Contingency Situations" (now "CSN Incident") and notification requirements for those incidents to reflect operational practices. Approved by the board February 25, 2021, effective April 26, 2021.	Effective April 26, 2021
